Education

Lovely Professional University, Punjab

July 2024 – June 2028

Bachelor of Technology in Computer Science and Engineering (Generative AI)

CGPA: 7.77

Relevant Coursework

- Data Structures
- Software Engineering
- Systems Programming
- Deep Learning
- Analysis of Algorithms
- Database Management
- Artificial Intelligence
- NLP
- OOP
- Internet Technology
- Machine Learning
- Computer Vision

Projects

Smart Civic Complaint Platform with Chatbot and OCR Support | MERN Stack

April 2026

- Developed a Smart City Complaint System using the MERN stack with image-to-text support.
- Integrated an AI chatbot to assist citizens with guidance and quick query resolution.
- Designed a user-friendly interface with real-time tracking and status updates for complaints..

Multi-Factor Authentication System | HTML, CSS, JavaScript, PHP, MySQL, PHPMailer

November 2025

- Implemented backend validation and session handling for enhanced security.
- Integrated database for storing user credentials and authentication data.

Credit Card Fraud Detection System | Python, Scikit-learn, Pandas, NumPy, Matplotlib

October 2025

- Built a machine learning model to detect fraudulent transactions using classification techniques.
- Handled imbalanced datasets using resampling techniques to improve model performance.
- Evaluated and optimized model accuracy using metrics like precision, recall, and F1-score.

Student Attendance Tracker | C, Data Structures (Arrays)

April 2025

- Implemented features to add, remove, and track student attendance records.
- Generated attendance reports with percentage calculations for each student.

Technical Skills

Platforms/Technologies: AWS, Microsoft Azure, Linux

Languages: Python, Java, C, C++, HTML, CSS, JavaScript, PHP, SQL

Developer Tools: VS Code, GitHub, Jupyter Notebook, Postman, XAMPP

Frameworks: MERN Stack, Pandas, NumPy, Matplotlib, Scikit-learn

Leadership / Extracurricular

Microsoft Certified

May 2026

Azure AI Engineer Associate (AI-102)

Lovely Professional University

- Designed and implemented AI solutions using Microsoft Azure AI services and cloud technologies.
- Gained hands-on experience in Generative AI, NLP, Computer Vision, and intelligent AI applications.

Microsoft Certified

December 2025

Azure Data Fundamentals (DP-900)

Lovely Professional University

- Explored Natural Language Processing (NLP) and conversational AI tools.
- Acquired knowledge of AI workloads, machine learning, and computer vision concepts.

Organized PHP Development

August 2025

45 Days Training

Dextor Labs,Rajasthan

- Built dynamic web applications with database integration.
- Completed intensive training in PHP for backend web development.

Microsoft Certified

May 2025

Azure AI Fundamentals (AI-900)

Lovely Professional University

- Learned basics of data processing, storage, and analytics in Microsoft Azure.
- Gained foundational knowledge of core data concepts including relational and non-relational data.

Microsoft Certified

December 2024

Azure Fundamentals (AZ-900)

Lovely Professional University

- Built a strong foundation in cloud architecture and deployment.
- Gained knowledge of Azure services, pricing, and governance models.
